INSPECTION AND TECHNICAL SERVICES

We offer tailormade inspection and technical services for third-party clients (banks, ship owners, insurance companies, investors).

These services include:

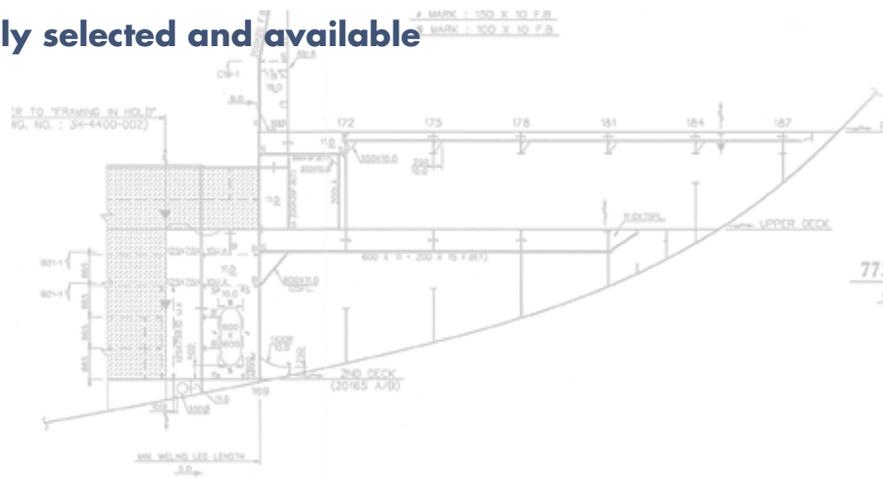

- › Condition survey and technical inspection of the vessel with detailed report
- › Pre-docking surveys
- › Pre-Purchase inspections with evaluation of deficiencies and recommended repairs
- › Plan and execute dry dockings
- › Accompanying annual and class renewal surveys
- › Due diligence checks on docking- and repair specifications

Your benefits:

- › Reliable experts with many years of experience
- › Unbiased and accurate account of the vessel's current state
- › Detailed reports with photos, analysis and comments

Our local surveyors are carefully selected and available in the following areas:

- › U.S. West Coast
- › U.S. East Coast
- › U.S. Gulf of Mexico
- › China, Shanghai & Zhoushan area
- › Germany, Hamburg area

Our surveyors offer years of experience and detailed know-how. Here are three typical CVs of our surveyors:

Who we are

Looking back at more than 15 years of experience in ship management, we do know the processes and hick ups by heart. This enables us to produce cloud based software applications meeting the requirements of modern ship management to the point. We think along the same lines as our clients do.

MTS Maritime Turnkey Solutions GmbH was officially established in May 2015, preceeded by two years of development. Since then our list of customers is constantly growing. We are happy to serve our customers with our high quality maritime niche software applications.
